Calls for information

From

The Sanitary Engineer
Bureau of Sanitary Engineering Madras

No 1006 of 8-11-48 forwarding the information

Rapid sand gravity filters for the Tumkur water works

1968/mf
√3618/mf

17) The Sanitary Engineer states that the main work of improvements to the water supply at Tumkur depends upon the revised Estimate, so the same can not be sent at this stage and states that the following items are included in the revised Estimate -

A

1. Cost of the Filter Equipment
2. Cost of constructing an R.C.C. steel almond the filter
3. Construction of R.C.C. tanks for washing filters
4. Housing filters
5. Erection charges and other miscellaneous charges

18) The Sanitary Engineer has not furnished the estimated cost of each item and the total figures comes up to, it is stated, to Rs 65,000/-

19) The president in his letter No Nr 22/Wks-reg. dated 27th Oct'48, requests

6

Rapid sand gravity filters for Tumkur water works

Sanction to the resolution to report the extra cost in this behalf (Flag H) 1968/mq 3618/mq ?

20) Submitted for orders the enquiry

Any Flag H 19/11

21) The resolution of the Tumkur Town ~~X~~ Municipal dated 24 8 48 is self-explanatory as it requests therein that the extra expre for carrying out the extra works refer to at A in the previous page Cons up to Rs $5,000/-.

22) The estimate for this has not yet been prepared and it is stated that it can be prepared after the filter equipment is received & other details of the works are known.

23) The resolution of the Municipality to the effect that a moiety of the excess cost of Rs 3,500 may be given as first grant during the current year. The balance will be met from out of the funds of the Tumkur Municipal

This requires verification

24) The proposal is for orders with Government. This will have to be referred as Council's

25) As it is stated that the quotation would become time-barred, the Secy Engr requests orders to place orders with the firm thro' the Eng Stores Purchase Committee in view of the urgency, this may perhaps be approved

Newsheet 19/11/48

Rapid sand gravity filters for the Tenkasi waterworks

ab) Please bring up

8
28/11

27) In view of the fact that the Budgetary position is quite telespacy it cannot afford to meet the balance of the excess cost of Rs 17,500/- Hence certainly no necessity to Sanction an addl loan for that extent for the Tenkasi water supply scheme. Now that it is stated above that the balance (of Rs 17,500) will be met out of the funds of the Tenkasi Municipality.

Revised 27/11/48

note typed on 27/11/48 — typed on 2 sheets for

CIRCULATION NOTE. C.984/48 12

Subject Further grant towards the improvement of water supply in Tumkur Town

The Improvement of water supply to Tumkur Town was sanctioned in Government Order No.L.10869-72/ML.45-46-31 dated 4-2-1947, the cost of Rs.1,62,660/- being met by the Government and the municipality in equal proportions. A loan of Rs 81,330/- repayable in twenty equal annual instalments with interest at 3½% has also been sanctioned to the municipality to meet its share of the cost.

2. In the estimate for Rs.1,62,660/- a sum of Rs 30,000/- was provided for the construction of the Rapid Sand Gravity Filters. It is now reported by the Sanitary Engineer after calling for quotation for the supply of materials for the above work through the Stores Purchase Committee that the construction of the Rapid Sand Gravity Filters is estimated to cost in all Rs 65,000/-. The increase is said to be due to the increase in the prices of materials.

3. The Municipal Council have agreed to bear half of this extra expenditure of Rs 35,000/-(I e , Rs 65,000 - Rs.30,000 provided ∓ Rs 35,000/-) and request the Government to bear the other half viz , Rs 17,500/- and also to give a supplemental loan to the Municipality of Rs.17,500/- to meet their share of the extra expenditure.

4. It is proposed to sanction a grant of Rs.17,500/- as requested and as the financial position of the municipality is sound to tell them that it is unnecessary to sanction a loan for this purpose.

5 When the papers were referred to the Financial Secretary to Government, he has observed as follows -

" I wish all factors had been taken into consideration when the estimate was first prepared " - As this is a question of improving water supply, I have no objection to the

proposal, provided the extra cost can be met out of the budget provision 30 grants 2 improvement of water supply in Towns without asking for an additional grant though I am reluctant to enhance the Government grant, in view of our financial position. The Municipality should be clearly told that they should rely on their resources without coming up to Government at every stage in the increase in the estimate. Our budget position is so bad that even protective water supply should be wait or go-ahead without Government help "

6. The Minister for Local Self Government has minuted that action may be taken as noted in para 4 supra The grant is proposed to be met out of the water supply grants for 48-49 and it is not proposed to ask for any additional grant on this account.

7. The Dewan and the Chief Minister having agreed to the disposal of the question by circulation, this note is circulated to the Ministers

8 The points for consideration and orders are -

294 14/1

i) sanctioning the revised estimate for Rs 65,000/- for the construction of Rapid Sand Gravity Filters in connection with the improvement of water supply in Tumkur Town, the extra expenditure being met by the Government and the Municipal Council in equal proportions as in the case of the original schme

ii) Sanctioning a grant of Rs 17,500/- from out of water supply grants for the year 48-49 to the Tumkur Town Municipality for this purpose

Secretary to Government,
General Department.

Final note by the Minister for Local Self Government

Subject — Further grant towards the improvement of water-supply in Tumkur Town

The improvement of water supply to Tumkur Town was sanctioned in Government Order No L 10869-72/M1 45-46-31 dated 4-2-47, the cost of Rs. 1,62,660/- being met by the Government and the Municipality in equal proportions A loan of Rs. 81,330/- repayable in twenty equal instalments with interest at 3½% was also sanctioned to the Municipality to meet its share of the cost

P

2 In the above estimate, a provision of Rs. 30,000/- was made for the construction of the Rapid Sand gravity Filters It is now reported by the Sanitary Engineer after calling for quotations for the supply of materials for the above work through the Stores Purchase Committee that the construction of the rapid sand gravity filters is estimated to cost in all Rs. 65,000/- as prices of the materials have increased

Q

3 The Municipal Council have agreed to bear half of this extra cost of Rs. 35,000/- and request the Government to bear the other half viz , Rs. 17,500/- and also to give a supplemental loan of Rs. 17,500/- to the Municipality to meet their share

R

4 It is proposed to sanction a grant of Rs. 17,500/- as requested and as the financial position of the Municipality is sound, to intimate the Municipal Council that it is unnecessary to sanction a loan for this purpose

5 The Financial Secretary agrees to the proposal, provided the Government grant of Rs. 17,500/- can be met from the allotment made under water-supply grants in the current year's State Budget This can be done

Para 31 of Notes

Para 31 of Notes & A

6 The Dewan and the other Ministers agree with me in the above proposals

7 I solicit His Highness's gracious sanction to the revised estimate for Rs. 65,000/- for the construction of the Rapid Sand Gravity Filters in connection with the improvement of water-supply in Tumkur Town and to the

the payment of a grant of Rs. 17,500/- from out of the water supply grants for the year 1948-49, to the Tumkur Town Municipality for this purpose

Subject:- Re Rapid sand gravity filters for Tumkur Water Works

Sir,

In forwarding herewith the copy of the Sanitary Engineers No 169 dated 13-8-1948 requesting to communicate the acceptance of this Municipality to meet the extra expenditure of Rs 35,000/- over and above the estimated cost of Rs 1,62,250/- already sanctioned for the improvement of Water supply to Tumkur town, I have the honour to state that the subject was brought before the council who at their meeting held on 24-8-48 have resolved that the proposal of the Sanitary engineer may be approved They have further resolved, that the Government may be requested to treat half of the extra cost of Rs 35,000/- as government grant and the remaining half viz, 17,500/- as loan supplemental to the loan of Rs 82,625/- already sanctioned for the improvement of water supply to the Municipality

1,62,663

I request you therefore to obtain sanction to the resolution of the Municipal Council dated 24-8-48 in the matter of meeting the extra expenditure of Rs 35,000/- in connection with the improvement of watsupply to Tumkur Town

Copy of the resolution of the Municipal Council dated 24-8-48 is enclosed

I have the honour to be,
Sir,
Your most obedient servant,
PRESIDENT

Letter No 169 dated 13-8-48 from the Sanitary Engineer, Bureau of Sanitary Engineering Bangalore, to the President, Town Municipal Council, Tumkur

---

Subject Re rapid sand gravity filters for Tumkur Town Water Works.

I have the honour to state that the under the sanctioned estimate amounting to Rs 162250/- for improvement of water supply to Tumkur town, there is a provision of Rs 30000/- for providing and installing a rapid sand gravity filters The Secretary, Stores Purchase Committee who was requested to call for quotations for the supply of the above, has forwarded the quotations for ~~the supply of~~, my remarks The cost of a suitable equipment as offered by the firm is Rs 33650/- This does not include the cost of R C.C steel for housing the filter and the overhead tank of 30000 gallons capacity for washing the filters With the inclusion of these two and cost of erection, the cost of the filters would approximately be Rs 65,000/- There will thus be an excess of Rs 35,000/- over the sanctioned provision

I request you to communicate your acceptance to meet this extra expenditure, so that I may send my recommendations to the Secretary, Stores Purchase Committee for placing orders with the firm The favour of a very early reply is requested as the quotations are likely to become time-barred

---

Subject -

Improvement of water supply to Tumkur Town

Sir,

I write to state that the Sanitary Engineer in his letter dated 8-6-48 had intimated that he has requested you to obtain sanction of Government for the acceptance of tenders received in connection with the above work but no reply is received in the matter so far Further he requested this office in his letter No 109 dated 13-8-48 to communicate the acceptance to meet the extra cost of Rs. 35,000/- over the sanctioned estimate being the cost of Rapid Sand Gravity filters Sanction of Government to the Resolution of the Council to bear this additional expenditure is awaited A copy of the letter addressed to Government in the matter has also been sent to the Sanitary Engineer for his information

The scarcity of water is increasing in the Town and much difficulty is being felt by the public due to the inadequate supply of water I am afraid that the situation will become worse Though the long felt Improvement Scheme of water supply was sanctioned by Government as long back as February 1947 and the 1st instalment of loan has been repaid, it is regretted that the public of Tumkur Town should have been unfortunate enough not to have the benefits of the proposed scheme as yet

In the meanwhile the loan amount of Rs 81,330/- has also been adjusted to 17 (a) P W Deposits

Under these circumstances, I request that arrangements may kindly be made to take up the execution of improvement to the Water Supply Scheme very early and information sent to me to be

Sir, 10/11

Subject - Rapid sand gravity filters for the Tumkur Water Works

---

With reference to your letter No L 4203 dated 22-10-1948 regarding the above, I write to state that the revised estimate consists of the following items -

1 Cost of the filter equipment
2 Cost of constructing an RCC steel around the filter
3 Housing filters
4 Construction of R C C tank for washing filters
5 Erection charges and other miscellaneous

The revised estimate can only be got after the filter equipment is received, as the other items of work mainly depend upon the design and the exact size of the filters On a very rough basis the cost was worked out as 65,000/-rupees for all the above items and the President, Town Municipal Council, Tumkur has been intimated accordingly

Yours faithfully,

Sanitary Engineer

Government Order No.L.10869-72/ML.45-46-31 dated 4th February 1947 sanctioning the improvement of water supply to Tumkur Town at a cost of Rs.1,62,000/- the expenditure being met by the Government and the Municipal Council in equal proportions and a loan of Rs.81,330/- repayable in twenty equal instalments with interest at 3½% being also sanctioned to the municipality.

2. Letter No.M.C.22/48-49 dated 3rd September 1948 from the President, Tumkur Town Municipal Council, stating that as against a provision of Rs.30,000/- made for the construction of the Rapid Sand gravity filters in the original estimate for the above work, the cost has revised amounts to Rs.65,000/- on account of increase in the prices of materials and requesting sanction as resolved by the Municipal Council on 24th August 1948 to the payment of a grant of Rs.17,500/- being a moiety of the excess cost, from out of the water supply grants provided in the State Budget for the year 1948-49 and for a supplemental loan of Rs.17,500/- to the municipality to meet their share of the extra expenditure of Rs.35,000/-

****

ORDER NO.L.10169-73/ML 152-48-6

Dated, Bangalore, the 11th March 1949

A provision of Rs.30,000/- was made in the original estimate for the construction of the Rapid Sand gravity filters in respect of the water supply to Tumkur Town Municipality. It is now reported by the Sanitary Engineer after calling for quotations for the supply of materials for the above work through the Stores Purchase Committee, that the construction of the Rapid Sand gravity filters is estimated to cost in all Rs.65,000/-, as prices of materials have increased, resulting in an excess cost of Rs.35,000/-

In the circumstances reported, sanction is accorded to the extra expenditure of Rs.35,000/- in this behalf, the same being met by the Government and the Municipality in equal proportions. The Government

share of the cost amounting to Rs.17,500/- will be met out of the allotment under water supply grants for the year 1948-49. As the financial position of the Tumkur Town Municipality is sound, it is not considered necessary to sanction the loan of Rs.17,500/- asked for to meet the municipal share of the cost, which can be met from out of the closing balance of the Municipality, for the year 1948-49.

Necessary further action may be taken to execute the work -- expeditiously.
